THE FOCUS IS ON VET TRAINERS

Fits in with current workload and doesn't take away from the classroom

Content is current, addresses units of competency and is created with professionals working in industry

Manageable size chunks to retain interest while still maintaining relevant content

Housed on a platform that trainers can access anywhere, anytime

Follow up activities to confirm participation

The program is offered through a perfect selection of engaging and interesting content, delivered in the right way that is relevant to trainers in both vocational training and the classroom.
